

MARTINA TOMAN

Martina is a renowned Austrian art therapist and Vienna-based painter who uniquely combines diverse therapeutic knowledge with her artistic expression. Guided by a creative vision deeply rooted in her connection to nature, she brings these elements to life in her paintings. Through the deliberate use of color, texture, and symbolism, Martina Toman creates a harmonious dialogue between artwork and the human spirit. Her work invites individuals to engage with the transformative power of art, discover their own creative voice, and experience the unity that connects us all.

"Art is a universal language that speaks deeply to our inner selves, allowing us to express feelings and thoughts that are often hard to put into words. With my art, I invite the viewer on an emotional journey, where color, form, and composition inspire us in different ways to dive deeper into our senses and create a dialogue..."

Martina Toman shared in one of her many lectures.
